

## SAWO Radio controlled XL Split logger with engine and hydraulic station

Engine:	27 hp, fuel
Weight:	1.350 kg
Length:	Total 3.200 mm
Height:	930 mm
Opening:	1.150 mm x 410
Recommended pressure:	200 - 250 bars

100 liter per min. to 80 bars. When it passes, it makes 30 liters up to 250 bars.

SAWO split logger just works smoothly and split while you chop, so the capacity stays the same on the chopper.

Do you wish a smaller split logger, we can also provide you with this (SAWO Split logger).
